THE PROGRAM

If you need one or several of your salespeople to increase sales results but aren't sure where to start, we can help! Our **Sales Growth Coaching** Program is developed to help your salespeople find, develop, qualify and close more deals.

Their personal assigned **Sales Growth Coach** will monitor and track each individual's sales activities, coaching and holding them accountable to behaviors that will produce revenue. Practice and role play are a big part of this program's success formula.

Our 6-month **Sales Growth Coach Program** will help your salespeople learn communication skills that will grab the attention of prospects. We will improve their sales skills through practice, role play and strategy development for short and long-term success.

"My team brought in \$20,810 in new biz this month! With your coaching, we are effectively tripling our past performance on a consistent basis."
